

Good Morning from Mani-Sonnenlink!

I would like to send you some new pics from this wonderful and rich spring here in the Mani.

Drinking a coffee at a beach bar,

enjoying spring retreat or holiday in one of our bungalows, or visiting the olive trees in the green fields. All is unique - everyday new again!

Come and visit our small and delicate little resort full of live and love. The first BIO Hotel in Greece, and the only one.

Every day Bläuel products are served on our vegetarian organic buffet together with traditional and healthy basic Greek dishes and fresh salads from our gardens.

Pure taste, pure products, pure holiday - Greece at its best!

Have a look at our webpage: www.mani-sonnenlink.com to see how to reach us and what one can find here.

Contemplation at the BIO-Hotel:
Sustainable revival through mindfulness-awareness practice and relaxation:

This year for the first time we will offer daily Yoga classes and Meditation, along with our heavenly relaxation or facial reflexology massages by Lisa Jeppesen.

I hope I could sent you some of our Greek-Mani Sun rays, and in case you come and enjoy your holiday here, you might take some home personally as well :-)

Many sunny greetings from Mani - not far away rom Kalamata airport, and one of the most beautiful areas in Greece.
